* Changing to a new major will require students to adopt rules applying to that major for the current catalog year. Changing to a double major will require the adoption of the current catalog requirements for both majors. The degree earned will be the degree attached to the primary major. If you are selecting a Tabor major as your second major, it must be listed as your primary major.

** Please note the difference between second major and second degree. Students seeking two separate degrees must meet all degree requirements for both degree programs including GPA, distribution requirements, core requirements, state exam requirements, etc. Double degrees require 33 additional credits beyond the original number required for first degree program.
