First Week 2015

Discover Millikin! Experience it all in First Week 2015:

First Week is designed especially for first year students in order to prepare you for what is ahead. Being part of the Millikin community opens the door to an incredible breadth of academic, leadership, and co-curricular opportunities. This experience will teach you what is expected in the college environment and how to best engage in the Millikin community to ensure your success. Millikin is a place where you can do more and be more - the possibilities here are endless! You will also learn about student organizations, studying abroad, internships, student media, intramurals and recreation, community service, and many more programs and services that support your academic goals, personal development, holistic well-being, and life pursuits.

All First Week activities are mandatory, so that you can learn all the information that is vital to your persistence at Millikin. Plus, you’ll make bonds that last a lifetime, not only with your peers, but also with our dynamic faculty and administrators. Should you have any questions along the way, we are right here to help.

Welcome to the Millikin University Family! Go Big Blue!
First-Year Experience Mentors

First-Year Experience Mentors (FYEMs) are instrumental as first year students make personal adjustments to campus and academic life during the summer and throughout the entire first year at Millikin. Check your Millikin e-mail in late July for an e-mail from your FYEM! To find out more about your First-Year Experience Mentor, go online at www.millikin.edu/firstweek.

What Will I Learn at First Week?

Not only will you begin your first year seminar course, bond with faculty and students, and become adjusted to your environment, First Week also affords you the fantastic opportunity to explore issues unique to the first year student. You will learn what it means to be an ethical decision maker and how to demonstrate academic integrity; and you will dialogue with peers about what it means to value differences. First Week also affords you the fantastic opportunity to explore issues unique to the first year student.
