

Human Services Assessment Rubric 2013-2014

Each effectiveness measure will receive a performance indicator using the following rubric:

Green: an acceptable level or clearly heading in the right direction and not requiring any immediate change in course of action. Continuing support should be provided.

Yellow: not an acceptable level; either improving, but not as quickly as desired or declining slightly.

Strategies and approaches should be reviewed and appropriate adjustments taken to reach an acceptable level or desired rate of improvement.

Red: our current status or direction of change is unacceptable. Immediate, high priority actions should be taken to address this area.
